

Bird Baubles

OUTDOOR ACTIVITY

BIRD FEEDER BAUBLES

BIRD BAUBLES OUTDOOR ACTIVITY

Winter is waving over us and the fruits and berries are slowly disappearing. give the birds a winter treat with a tasty Bauble Bird feeder!

YOU WILL NEED:

Lard (veggie lard works good too), Tasty bird treats (seeds/oats/nuts/dried fruit), mixing bowl, string, scissors, a pinecone

- 1 . Tie your string around the top of your pinecone to make the base of your bauble
- 2 . Put the lard into your mixing bowl, add your bird treats and get mixing (hands work best here)
- 3 . When well mixed start to form your sticky food around your pinecone, just like you would make a snowball!
- 4 . When it all looks plump and round, find a great bird friendly place to tie your bauble treat
- 5 . Wait patiently, and watch all the different birds who visit your festive feeder!

WANT MORE?

Get cooking, melt your mixture in a heat proof mixing bowl over a pan of water and try pouring in to a scooped out orange - remember to add your string before popping it in to the freezer to set!
